

Every highway. Every road.

We're here to preserve and protect.

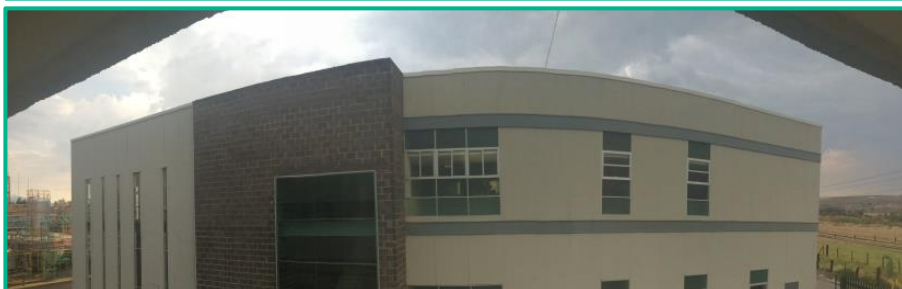

At KAO, we have the specialized asphalt additives you need to solve any paving challenge. We have been manufacturing and supplying high-performing asphalt emulsifiers and additives to customers in over 30 Countries for over 40 years.

We're flexible, reliable, and here to stay.

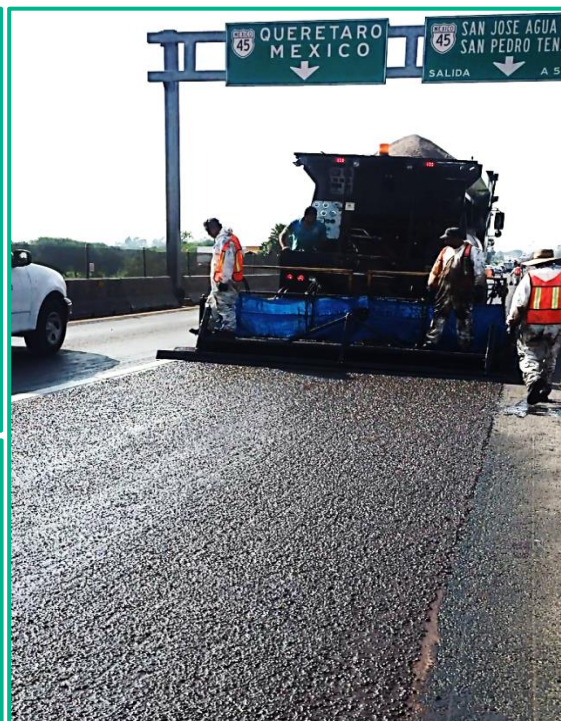

Two manufacturing locations in North America, warehousing capabilities and a network of distributors to ensure reliable, timely supply of material

Well-equipped R&D center and highly skilled staff to provide innovative solutions to difficult paving challenges and to develop custom products to meet your specific needs

Wide portfolio of asphalt emulsifiers & additives with proven performance across multiple applications & regions

Application Type	Key Properties
Anti-stripping Agents	ASAs that are heat stable, compatible with PPA and highly effective at low dosages
Recycling Agents	Effective at low dosages to improve low temperature properties like m-value and ΔT_c
Chip-seals	Emulsifiers that produce emulsions with high viscosity, fast breaking characteristics and superior adhesion performance to minimize chip loss
Micro-surfacing and Slurry Seals	Wide range of emulsifiers and co-emulsifiers to make asphalt emulsions that provide superior adhesion performance, rapid cohesion buildup and work with a variety of aggregate and temperature ranges
Cold-mix Recycling	Emulsifiers that produce highly stable emulsions and impart superior adhesion performance
Ultra-thin Lift HMA Technology	New technology developed internally to apply ultra-thin (<0.5" thick) pavement preservation treatment using traditional hot-mix material and equipment
Polymeric Additives	Plant add polymeric additives to improve mix performance and impart resistance to fuel/oil damage

For more information about our portfolio of high-performing additives, [visit our website](#) or contact us

North Carolina Plant & Office
243 Woodbine Street
High Point, NC 27260

Commercial Office
10077 Grogan's Mill Road, #465
The Woodlands, TX 77380
